

Digital Writing Solution

- IMPROVE ACCURACY
- RELIABILITY
- ACCOUNTABILITY

Gathering information throughout a project is critical to the overall success of the projects as well as its profitability. Get real-time Information from workers in the field to those who need it, when they need it and where the need it.

PointDigital©'s Digital Drawing and Digital Forms makes it easy for field workers like designers, engineers, contractors, project coordinators and supervisors to gather critical project information (data, drawings, forms) even signatures and delivers that information to office personnel . Additional functionality like business rules and document workflow can be added to ensure that the information is distributed to all key stakeholders.

INCREASED EFFICIENCY & PROFITABILITY

Gain a competitive edge by making your processes more efficient. The cost associated with gathering and routing documents and data is extremely costly. Overnight shipping, large envelopes, copying, faxing, and more can cost thousands of dollars during a project.

SOLUTION OVERVIEW

PointDigital© Digital Writing Solution allows your mobile workers to write on a form and capture electronically whatever is written, including signatures. Data from the pen is sent via a Bluetooth - enabled device or docked with a PC and downloaded to the server where the handwriting is converted into electronic text. A PDF image of the form and all handwriting is available within seconds for viewing. Digital writing is a convenient, natural way to collect information with minimal change to your current business processes or user-adoption issues

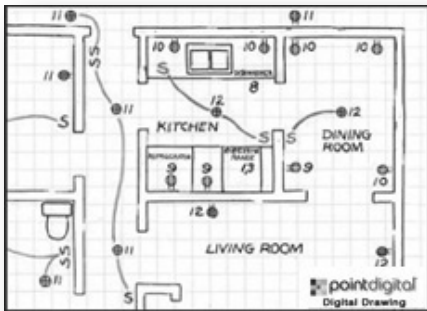

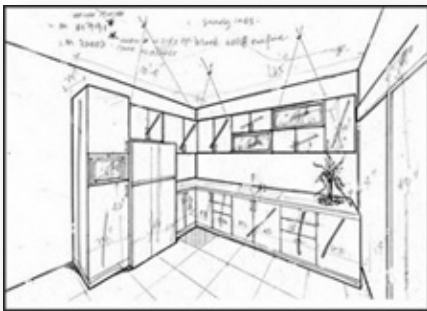

- REAL-TIME ACCESS TO DATA AND DOCUMENT
- IMPROVES BUSINESS WORKFLOW PROCESSES
- LOWERS OPERATING COST ON MULTIPLE BUSINESS LEVELS
- ACCOUNTABILITY FOR AUDITS AND COMPLIANCE

Digital Writing Solution

Field personnel armed with PointDigital© can easily capture and route information to the main office in real-time using a mobile device for immediate processing. Confirmation of the transmission, alerts and other two-way communication are also possible to improve Customer Service.

Work orders, inventory updates and other related documents no longer have to be dropped off, faxed, scanned or re-keyed, which frees up your technicians and support staff for more revenue producing activities.
