

Digital Writing Solution

- ACCURATE
- RELIABLE
- SECURE

Tablet PC's

naturalFORMS™

Powered by EXPEDATA

The next-generation of Digital Writing applications has arrived.

naturalFORMS™ allows users to easily and naturally complete pre-defined business forms right from their Tablet PC using a stylus, the touch of a finger, or the integrated keyboard. Straight through processing delivers form data and images directly to where you need them.

Backend systems, business workflow processes and collaboration now work with unsurpassed efficiency and cost reduction.

Immediate Data Verification At The Point Of Entry

Handwriting captured on the tablet is immediately transformed into digitized (typed) data which can be integrated with backend business systems.

Immediate Data Verification At The Point Of Entry – the handwriting interpretation provides instant feedback for accuracy and eliminates third party verification and data entry.

Business Forms on Tablet PC

- REAL-TIME ACCESS TO DATA AND DOCUMENT
- STRAIGHT THROUGH PROCESSING
- LOWERS OPERATING COST
- ACCOUNTABILITY
- SECURE
- SCALABLE

Digital Writing Solution Tablet PC's

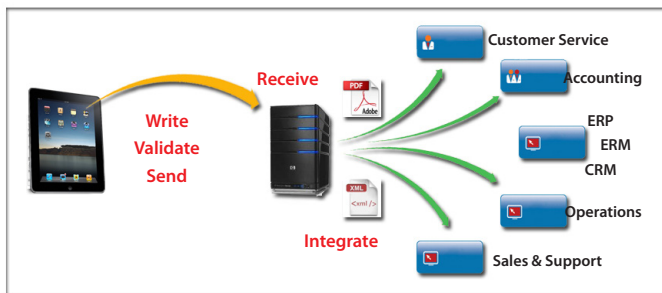

naturalFORM™ uses your existing forms and documents and can be applied to any business process.

PointDigital® is the bridge between your external and internal operations allowing both to operate at a higher level of efficiency. Forms utilize text fields, radio buttons, check boxes and signature areas to streamline data entry. Digital Writing uses industry leading handwriting interpretation and processing systems that offer the highest level of conversion in the industry today. Combine this with the ability to add industry specific custom dictionaries (Lexicons), enables your business to operate more efficiently while reducing cost.

A natural fit for naturalFORMS™

- Accounting
- Banking
- Construction
- Customer Support
- Education
- Field Service
- And many other industries
- Inspections
- Insurance
- Healthcare
- Pharmaceuticals
- Sales
- Wealth Management

Tablet PC Digital Writing Sample Workflow

Sample Business Workflow
